ABOUT OUR COMPANY

Company Snapshot

Founded in 1986, SKPI is a pioneer in polyurethane foam manufacturing and among India's largest producers, serving diverse industries such as furniture, automotive, bedding, healthcare, etc.

PRODUCTS AND CAPABILITIES

Integral Skin-Moulded PU

Available in raw, plywood-backed, MS, SS or other coated finishes

Visco Elastic Moulded PU

Our Memory foam is available bare or fully finished with bespoke covers —ideal for white labeling or exclusive unbranded use

Flexible Moulded PU

Available in Density Variant-
45- Regular
52- Premium
65- Gravity

Speciality Foam for Custom Use

We specialize in creating bespoke moulds and processing PU with custom formulations to meet your unique requirements

End-to-End Tailoring Unit

We go beyond raw foam — offering complete, customized products with covers and finishing that meet client specifications from start to finish

WHY US

01

Established Experience

Over 40 years of leadership in polyurethane foam technology.

02

Comprehensive Solutions

Providing End-to-End foam solutions across various industries.

03

High Volume Production

Proven capacity to deliver consistent quality at high volumes.

04

Customised Formulations

Exceptional ability to tailor foam formulations to specific needs.

INFRASTRUCTURE & QUALITY

01 Advanced Manufacturing Infrastructure

SKPI employs state-of-the-art German machinery designed for large-scale production with precision and consistency.

02 High-Pressure PU Machinery

The use of high-pressure German polyurethane machinery enhances advanced foam production capabilities.

03 Global Raw Material Sourcing

Raw materials are sourced from over 10 countries, ensuring quality and diversity in the supply chain.

04 Stringent Quality Control

Rigorous quality control and durability testing comply with European and American standards to guarantee product reliability.

INDUSTRIES SERVED

- Automotive
 - Furniture
 - Hospitals & Rehabilitation
 - Mattress
 - Pillows & Cushions
 - Auditorium
 - Travel
 - Railway
-
- We design and manufacture custom moulds and foams, crafted to meet the unique demands of every industry

COMMITMENT TO INNOVATION & EXCELLENCE

Continuous Investment in Technology and R&D

SKPI maintains leadership in foam technology through ongoing investment in R&D, enabling customized solutions that enhance performance, comfort, and durability.

Focus on Sustainable Practices and Certifications

SKPI complies with globally recognised standards including IS 7888, IS 8255, CA TB 117 and FMVSS 302

Dedicated to Delivering Enhanced Comfort and Safety

Using advanced machinery and strict quality controls, SKPI produces foam products that exceed ergonomic, resilience, and medical-grade safety standards.

SKPI: YOUR PARTNER IN FOAM INNOVATION

Expertise, Technology, and Customization

SKPI leverages over 40 years of polyurethane expertise and advanced manufacturing to create customised foam formulations tailored to client needs.

Unmatched Production Volume with On-Time Delivery

Using state-of-the-art German machinery, SKPI produces over 12,000 polyurethane mould pieces daily, ensuring high-quality foam solutions for diverse industries.

Committed to Building Lasting Relationships

SKPI has long-standing affiliations, with its customers some of whom have been with us for over two or more decades.

CLIENT SUCCESS AND INDUSTRY IMPACT

Client Trust and Project Success

SKPI has earned the trust of over 400 clients showcasing its reliability and expertise.

Diverse Industry Solutions

Our foam solutions serve key industries including automotive, healthcare, and furniture, addressing varied client needs effectively.

Reputation for Quality and Innovation

SKPI's reputation is built on delivering high-quality, innovative foam products that drive client satisfaction and industry impact.
