ABOUT THE COMPANY

SKPI, Shri Krishna Polyurethane Ind. (P) Ltd., a company with over 37 years of experience, is one of India's leading makers of polyurethane moulded products. SKPI is capable of making any polyurethane product in its facility with expert labour operating on the newest state-of-the-art German high pressure machine.

ABOUT THE PRODUCT

Metal-frame-inserted Moulded PU Chair

A metal frame inserted moulded PU foam chair is an aesthetically beautiful chair constructed from metal and foam components.
The structural support is provided by a well-designed sturdy and durable metal frame, while the PU foam is moulded around the frame to produce a pleasant seating surface. Pouring the HD foam into a mould with the metal frame attached and allowing it to cure with robust cushioning characteristics is the technique. The end result is a pleasant and long-lasting chair that is extensively used in workplaces, homes, restaurants, and public places.
